GENETIC CODE BEAMED FROM THE SKY
Is it Alien or Human?

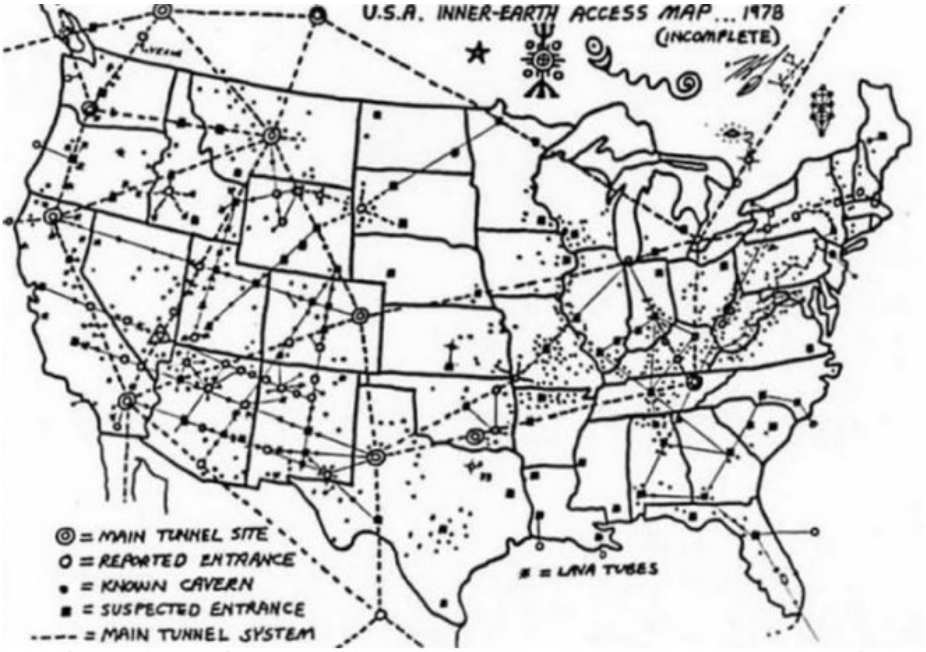
I have been doing research now for over 20 years about the subjects that I write about and one of these subjects are alien abductions. I watch and listen to SO many stories about alien abductions and 411 Missing People that I suspect the culprits are aliens and that aliens are abducting people from the woods and from wherever they go missing. Yes I am sure Dogman and Bigfoot, etc., are also involved but when you can cast a tracker beam to the earth that is for the most part unseen by the naked eye, aliens can grab anyone they what anywhere they want.

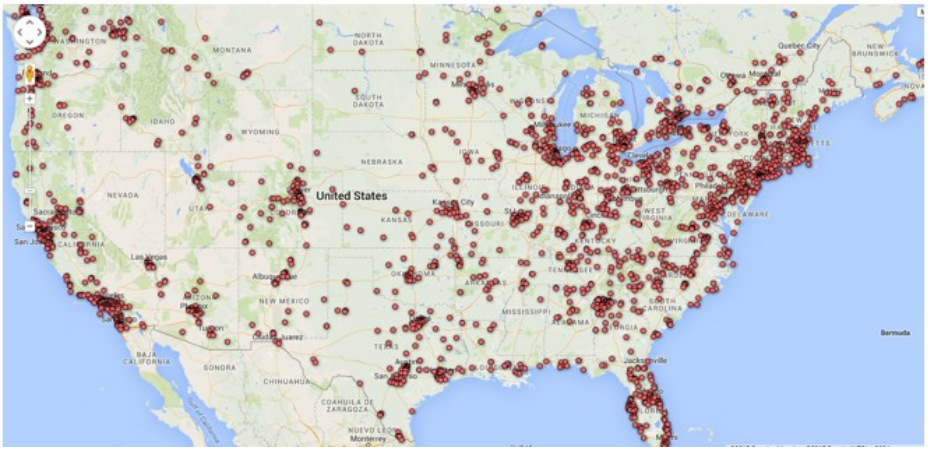
TO YOU UNBELIEVING NAYSAYERS

It's time for you to take a long lunch break. We do not want you in this class today because what we are talking about takes serious thinkers and you are not on the "serious thinker list."

We know that aliens created hybrid bloodlines it is in all of the ancient lore around the world including the Bible. Genesis Chapter 2 is clearly about artificial insemination done by a god and that god was NOT MY HEAVENLY FATHER. Those events caused what is referred to in the religious world as the FALL OF MAN.



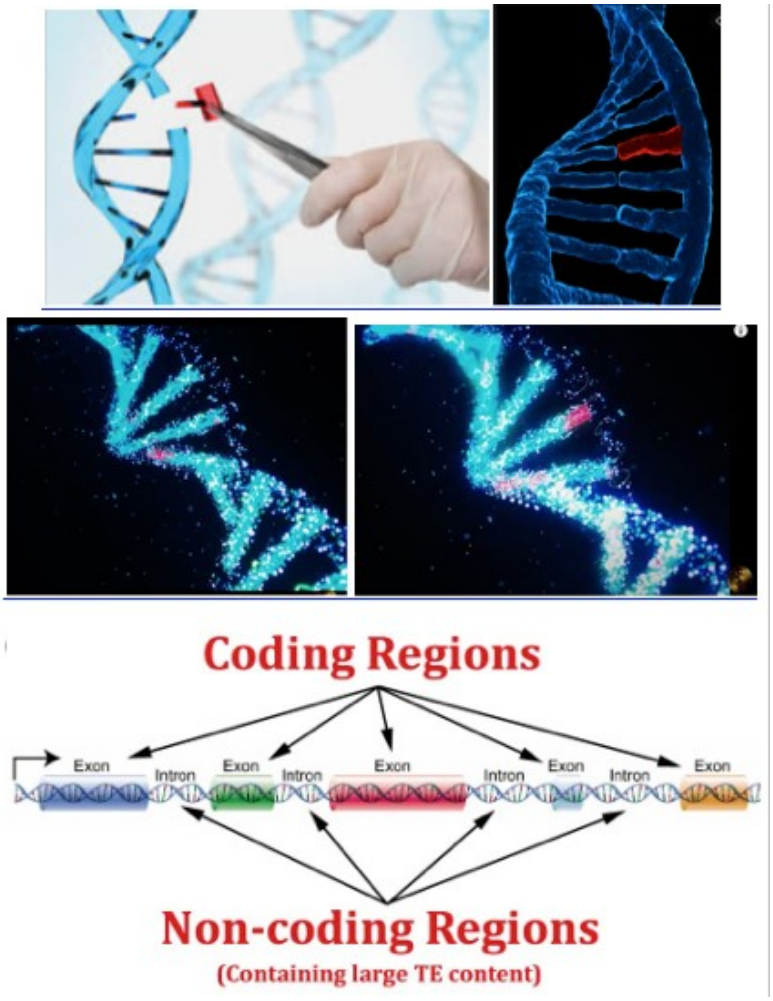
(Alleged map of underground tunnels, entances, suspected entrances, etc..)



You hear the stories of how people are walking and camping out in national parks and that while these families are at these sites PEOPLE GO MISSING. What makes some people more likely to be abducted? Are certain people being protected by let's say their guardian angels more where others are not? Could certain people be chip implanted with homing devices so that aliens know just where to find them? Are their alien and or Shadow Government and Military bases inside or under these National Parks where people go when they go missing? If so are aliens monitoring who is on the mountain or State Park and HOW?

IS THEIR A CODE BEING BEAMED DOWN FROM SPACE JUST LIKE IN THE MOVE CONTACT WITH JODIE FOSTER?

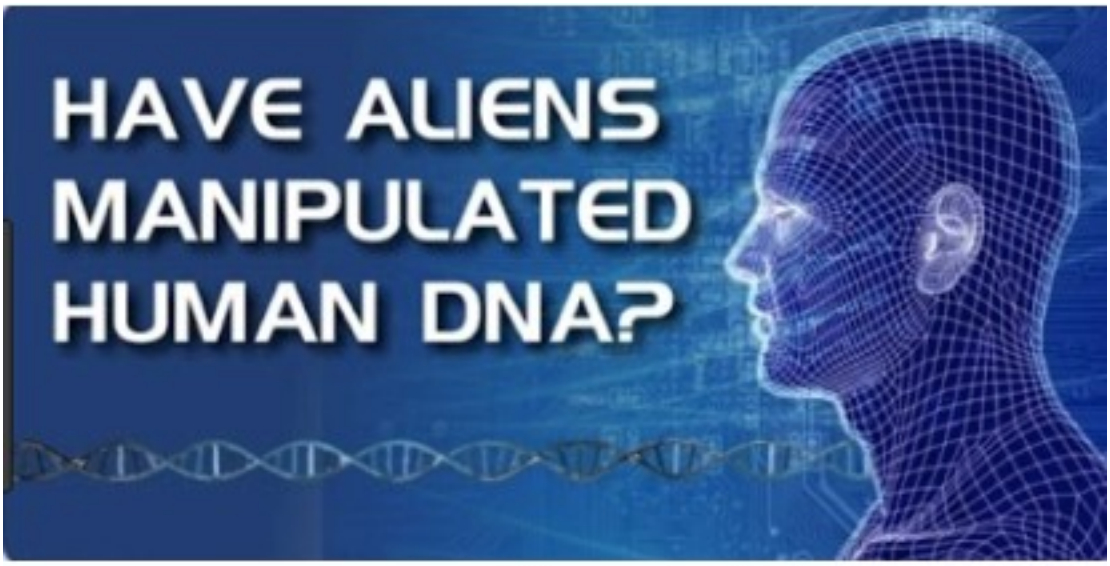
What is so interesting about the code being beamed down from space in the move Contact is that there does seem to be a code that is being beamed down from space today as well that can now be **linked to human DNA. Now OUR HEAVENLY FATHER is not beaming down a code but aliens certainly can and probably are. Could the Shadow Government also be sending this code from their satellites etc.**

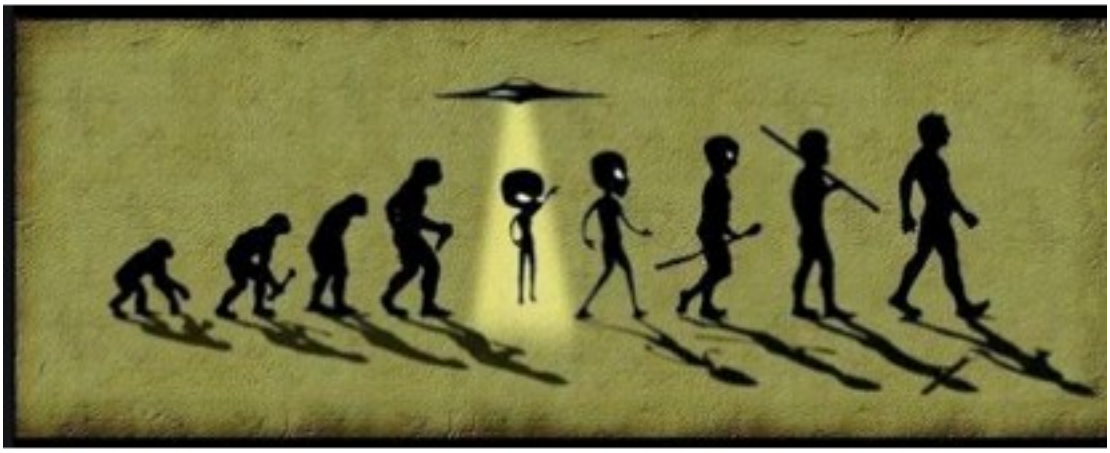


The answer is YES, there is a signal coming from space that is sending the human DNA code/signal to earth? The two scientists above (Maxim Makulov Fesenkov, Sherbeck) from the Human Genome Project discovered that mankind has been intelligently designed (genetically altered). They discovered that our DNA has been genetically manipulated with mathematically arithmetic patterns and symbolic language. They discovered this as they were mapping human DNA codes. They discovered that early HUMAN ALIEN HYBRID TRIBES were intelligently designed. The signal from space according to Carl Sagan is a non-random signal.

It is a repetition of prime numbers and it is coming from an intelligent source. This random signal is also found in our DNA. Their are 9 repetitions of 37 numbers. They state that this encoding is coming from extraterrestrials and that evolution is not what we have been told that it is.

(Yuri Rumer a Nuclear Physics) from the Astrophysical Institute is another source you can Google.





In following this up I discovered that the Sumerian, Middle East, Indian and African etc., missing alien human hybrid link was accomplished through alien genetic engineering also that all of these ancient hybrid tribes have the same story of the gods who came down to manipulate there race into existence.

Now keep in mind that if you DIG DEEPER, which NO ONE SEEMS TO WANT TO DO IF THEY PROMOTE DARWINS THEORY OF EVOLUTION you will find that THEIR IS THAT NASTY PESKY MISSING LINK that no one can explain or find in Darwin's theory. We know today that that MISSING LINK was added by the ALIEN INTELLIGENT DESIGNERS.

When you dig further into this alien human hybrid factor you will find that in order to clone or artificially inseminate hybrid man, aliens used not only alien DNA and primate DNA but they also had to take the DNA from our Scandinavian Mitochondria Mothers. All human beings carry our Scandinavian Mitochondria Mothers DNA in their genetic make-up. IT IS A BEST KEPT SECRET THESE DAYS. Our Scandinavian Mitochondria Mothers are the original race of mankind that was created on earth that had not been artificially inseminated with alien or primate DNA.

Scientists Claim Cro Magnon DNA Fully Modern, Unchanged for 28,000 Years

A Cro-Magnon DNA sequence 28,000 years old was obtained from fossil bones discoverd in the Paglicci cave, in Italy. The results show that the DNA is identical to the DNA sequences of certain modern Europeans. The DNA sequence has remained static and unchanged over 28,000 years. This means that Cro Magnon was a fully modern individual who perhaps had a larger brain capacity. (1)

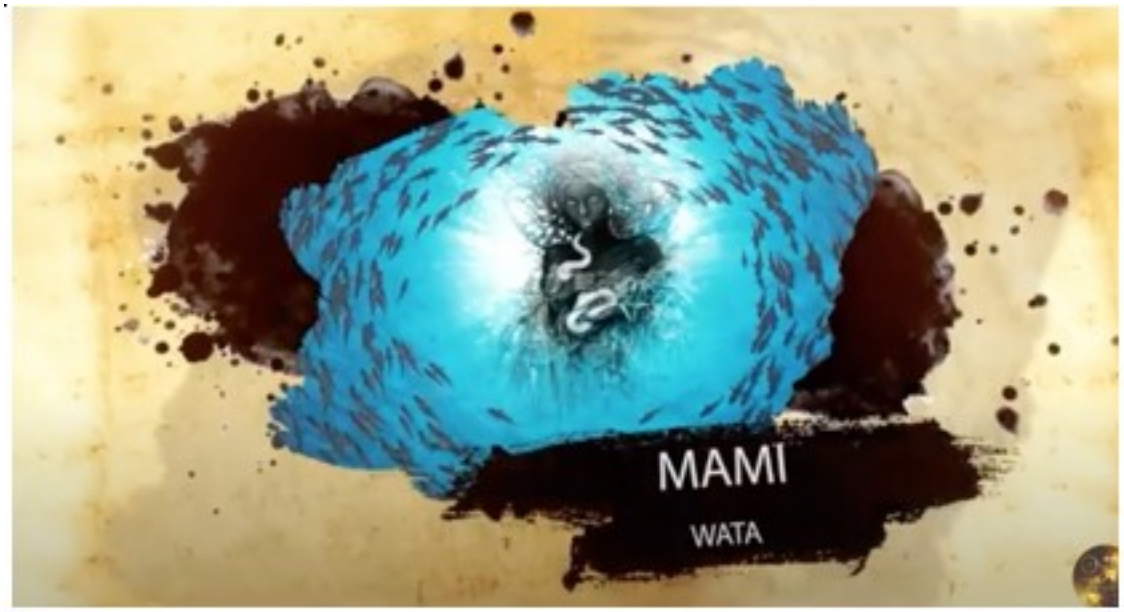
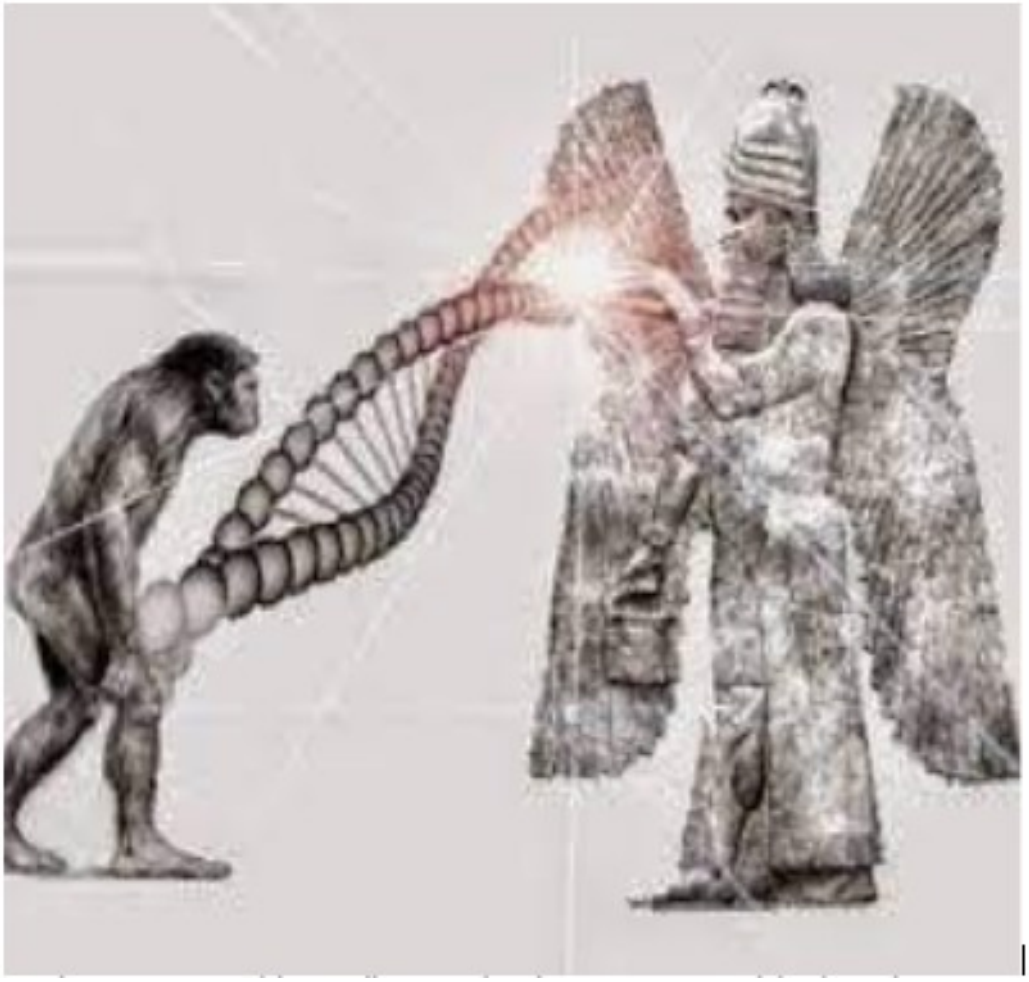
Seven thousand five hundred fifty-six (7556) haplotypes of 46 subclades in 17 major haplogroups were considered, and the finding that the Europeoid haplogroups did not descend from "African" haplogroups A or B is supported by the fact that bearers of the Europeoid haplogroups, as well as all non-African haplogroups do not carry either SNPs M91, P97, M31, P82, M23, M114, P262, M32, M59, P289, P291, P102, M13, M171, M118 (haplogroup A and its sub-clades SNPs) or M60, M181, P90 (haplogroup B). No Known Hominin is Ancestor of Neanderthals and Modern Human
A study just published by the Proceedings of the National Academy of Science concludes that none of the hominins usually proposed as a common ancestor, such as Homo heidelbergensis, Homo erectus and Homo antecessor, is a mato
The researchers, using quantitative methods focused on the shape of dental fossils, find that none of the usual suspects fits the expected profile of an ancestor of Neanderthals and Modern humans (Cro magnon).

Yes, let me repeat that. What seems to have happened is that aliens created their alien human hybrid races using genetic engineering techniques but we also have ancestors who were Scandinavians to begin with that carried NO primate or alien DNA whose DNA was altered over time through breeding with these alien human hybrid races. These European Scandinavians were the descendents of the much earlier race known as the Hyperborean’s who migrated into South Western Europe ahead of the developing Ice Sheet. Many moved back to Scandinavia after the melting of the last Ice Age Period.

The E.T. Signature has been discovered today inside our HUMAN DNA CODE. It clearly shows an ET **INTERVENTION TOOK PLACE** DURING THE EARLY HISTORY OF THE HUMAN RACE. The aliens who did this were called the Mami Wata. Each culture had their own names for these aliens.





Fusing or Tweaking Alien and Primate DNA with the Pinecone Device of the gods

You will notice as you watch and listen to experts talking to abduction victims that aliens use devices to paralyze, track, tweak and move people from one spot to another. Some are

referred to as pinecone devices because they look like a pinecone.

Others are described as long wands that they would hold over or tap on a person or animal to paralyze them that looks something like what a symphony conductor would use. Still other devices they use are described as having the shape of an ice cream cone or more like a microphone. They have an entire bevy of devices they use on people if you go back into history and search for pictures them. I do not have a large group of pictures just a few so that you can see what I mean.

THE BOOK OF ENOCH IS ONLY ONE OF MANY ABUDUCTION ACCOUNTS FROM THE PAST

In the Soviet Union, Agrest[39] and others have called attention to several biblical incidents which they suspect to reflect contact with extraterrestrial civilizations. For example, Agrest considers the incidents related in the apocryphal book, the "Slavonic Enoch," to be in reality an account of the visitation of Earth by extraterrestrial cosmonauts, and the reciprocal visitation of several galactic communities by a rather befuddled inhabitant of Earth. However, the Slavonic Enoch fails to satisfy several of the criteria for a genuine contact myth mentioned above: it has been molded into several different standardized supernatural frameworks; there is no transparent extraterrestrial motivation for the events described; and the astronomy is largely wrong. The interested reader may wish to consult standard versions of the manuscript[40].

There are other legends which more nearly satisfy the foregoing contact criteria, and which deserve serious study in the present context. As one example, we may mention the Babylonian account of the origin of Sumerian civilization by the *Apkallu*, representatives of an advanced, nonhuman and possibly extraterrestrial society[41].

THE ORIGIN OF HUMAN ROYALS TOLD IN TALE OF ANUNNAKI MALES WITH HUMAN FEMALES
EVENTUALLY, ANUNNAKI MALES BEGAN TO TAKE HUMAN FEMALES AS SEXUAL PARTNERS, AND OFFSPRING WERE BORN THAT WERE ANOTHER HYBRID SPECIES WITH MORE ANUNNAKI DNA. THEY WERE REFERRED TO AS "DEMI-GODS," AS THEY WERE NOT FULL ANUNNAKI ("GODS"), NOR WERE THEY FULLY HUMAN.
THIS INTERBREEDING IS DESCRIBED IN GENESIS, CHAPTER 6:
"AND IT CAME TO PASS, WHEN MEN BEGAN TO MULTIPLY ON THE FACE OF THE EARTH, AND DAUGHTERS WERE BORN UNTO THEM, THAT THE SONS OF GOD SAW THE DAUGHTERS OF MEN WERE BEAUTIFUL, AND THEY TOOK WIVES OF ANY OF THEM WHICH THEY CHOSE. AND THE LORD SAID, 'MY SPIRIT SHALL NOT ALWAYS STRIVE WITH MAN, FOR HE IS ALSO MORTAL, YET HIS DAYS SHALL BE NO MORE THAN ONE-HUNDRED AND TWENTY YEARS.' THERE WERE GIANTS IN THE EARTH IN THOSE DAYS, AND ALSO AFTERWARDS, WHEN THE SONS OF GOD CAME UNTO THE DAUGHTERS OF MEN AND BARED CHILDREN WITH THEM. THE SAME BECAME MIGHTY MEN OF OLD, THE MEN OF RENOWN."
THE JEWISH BIBLE DESCRIPTION OF THE EVENT LEAVES OUT CRITICAL INFORMATION

If you go back into hybrid history you will discover that these aliens that "flit and flew" in the sky were also known as the Fish Gods, the Fallen Watchers, the sky gods and by many other names, came up from underground under sea bases to clone these hybrid races and to tweak them during their development. They also bred with them in order to create a race of hybrids to rule the different hybrid nations. These hybrid kings and queens were much taller than the average person living in the region. They were reportedly as tall as the Anunnaki Fallen Watchers who were 7-10 ft tall. It is the descendents of these hybrid kings and queens who rule our world today who we call the AshkeNAZI Zionist, Sephardic Jews and Merovingian (ASM) New World Order Elite. **IT'S ALL ABOUT WHAT'S IN YOUR DNA.**

ALIENS MAY HAVE SENT A ‘STRONG MESSAGE’ FROM DEEP IN SPACE, SCIENTISTS CLAIM

Scientists hunting for life on other worlds have asked for 'permanent monitoring' of the star, in the hope of other messages

Andrew Griffin Tuesday 30 August 2016 09:30

A new signal has been found deep in space that could come from alien life.

The community of astronomers and scientists who scan the skies with telescopes in an attempt to find extraterrestrial life is abuzz with excitement over a “strong signal” detected deep in space that could come from an alien civilisation.

Scientists are cautioning people not to get quite too excited – at least not yet. The evidence remains preliminary and more work will need to be done to establish if it is not just a mistake, let alone whether it’s actually an extraterrestrial communication.

The message appears to have come from a nearby star, HD164595, in the constellation Hercules. That star is 95 light years away – relatively close at the scale of the universe – and almost exactly the same size as Earth.

What’s more, that same star has at least one planet, HD164595b, which is roughly the size of Neptune and has a 40-day year. It’s this planet that has people excited, since it appears that it could have the right conditions for supporting life.

The signal came to public attention after it had been noted by science fiction author Paul Gilster, who maintains a blog that looks at deep space exploration and alien life. Until then it had gone unremarked – the signal was actually detected in May last year, and was only brought to light after a presentation by the scientists who found it.

Claudio Maccone of Turin University in Italy attended a talk by the two scientists, who work at Russia's Ratan-600 telescope. He passed that data on to Mr Gilster, who then wrote up his blog describing what had been found.

Possible second Earth discovered

"No one is claiming that this is the work of an extraterrestrial civilisation, but it is certainly worth further study," wrote Mr Gilster on his site Centauri Dreams.

He wrote that the strength of the signal might suggest that it came from a Kardashev Type II civilisation. The Kardeshev scale indicates how advanced an alien civilisation might be: a Type I civilisation can use and store energy from a nearby star as we can, whereas a Type II civilisation can harness the energy of the entire star and would be far more advanced than mankind.

"Working out the strength of the signal, the researchers say that if it came from an isotropic beacon, it would be of a power possible only for a Kardashev Type II civilisation. If it were a narrow beam signal focused on our solar system, it would be of a power available to a Kardashev Type I civilisation," Mr Gilster said.

He did acknowledge that the signal might have been noise rather than an actual signal.

“The possibility of noise of one form or another cannot be ruled out, and researchers in Paris led by Jean Schneider are considering the possible microlensing of a background source by HD164595. But the signal is provocative enough that the RATAN-600 researchers are calling for permanent monitoring of this target.”

The Russian scientists who first found the signal wrote in their presentation that the probability of it being noise was low. As such, it should be permanently monitored by Seti scientists to see whether more can be learned about the star and its planet, they said.

Some at Seti – the search for extraterrestrial intelligence, which is a collective of scientists looking to find transmissions from alien life – have already squashed the possibility of alien communications.

“I was unimpressed,” wrote Eric Korpela, an astronomer who works closely on the Seti project. “Because the receivers used were making broad band measurements, there's really nothing about this 'signal' that would distinguish it from a natural radio transient”, he wrote, pointing to the fact that it could equally have been caused by a stellar flare, active galactic nucleus, microlensing of a background source, or something else entirely.

“There's also nothing that could distinguish it from a satellite passing through the telescope field of view,” he wrote in a post aimed at trying to temper the excitement . “All in all, it's relatively uninteresting from a Seti standpoint.”

Hawking launches alien search

Mr Korpela said that SETI@home – the project that lets people volunteer their computers to search for life elsewhere in the universe – picks up “millions of potential signals with similar characteristics, but it takes more than that to make a good candidate”. The new potential star didn’t even satisfy

the minimum criterion – that it should be detected multiple times.

If it isn't heard again then it might be something like the "WOW" signal, received in 1977. That was a powerful radio signal that came from a group of stars called **Chi Sagittarii.** The astronomer who discovered it, Jerry Ehman, circled it and wrote WOW next to it to mark it for future study, but the message was never detected again.

Seti scientists hope to hear more from the star by using the Allen Telescope Array, a huge system that can be used to look for messages that indicate alien intelligence. It was pointed towards the star over the weekend but has not as yet found any signal.

"However, we have not yet covered the full range of frequencies in which the signal could be located, if it's of far narrower bandwidth than the Russian 1 GHz receiver," Seti wrote. "We intend to completely cover this big swath of the radio dial in the next day or two. A detection, of course, would immediately spur the Seti and radio astronomy communities to do more follow-up observations."

Seti hopes that those observations can be enough to learn more about the star system that the signal is supposedly coming from.

"So what's the bottom line?" asked Seth Shostak, senior astronomer at Seti. "Could it be another society sending a signal our way? Of course, that's possible.

"However, there are many other plausible explanations for this claimed transmission, including terrestrial interference. Without a confirmation of this signal, we can only say that it's 'interesting'."
